> about me

Front End Developer with a degree in **Web Application Development**. **Eight years of previous experience in art direction and design** allow me to bring a strong sense of UX, visual hierarchy and detail to every project. I really enjoy building **responsive interfaces**, from the prototype to the final product.

> experience

Full Stack Developer · Gpex

2025 – 2026 · Mérida

- Work-study internship (FP Dual) on a real project for the Public Administration of Extremadura, with modules for internal staff and citizen-facing services.
- Frontend and backend/database development with Java 8 and T-SQL, working in a team with SVN and Eclipse.

Art Director & Content Creator · Miami Ad School

2020 – 2024 · Madrid

- Managed the corporate visual identity and created social media content for an international advertising creativity school.
- Art direction for communication projects, coordinating international teams in English and keeping brand consistency across all formats and channels.
- Worked side by side with web developers, creating the prototypes for the websites they would build: **this is where my interest in development began**.

Previous experience as Art Director

2017 – 2020

Groupe Renault 2017 – 2018 · **Mono Madrid** 2019 · **Brother Madrid** 2020

> projects

MOLegalSuite · Morán Ortiz Abogados

app.moranortiz.com

- Client portal for tracking legal cases, from the database to the responsive interface. **App in production: I can demo it in an interview.**
- Designed and built the law firm's corporate website (moranortiz.com) with WordPress and Elementor, based on my own Figma prototype.
